

To Whom it May Concern

Trondheim, 18.11.2024

Letter of reference

We hereby confirm that Christopher Eikeland Helland, born 16.11.1997 has been employed at Volve Insight AS from 17.06.2024 to 16.08.2024.

Volve is a market leader in technologies and services that power the green transition. Based on 50 years of experience, Volve provides innovative solutions, systems and insights to industries critical to society. Over 650 employees work with more than 2000 customers on energy, power grid, water and infrastructure projects that ensure a sustainable, flexible and reliable future. The company is headquartered in Oslo, Norway and active in 40+ countries. Visit volve.com for more information.

Christopher Eikeland Helland has been employed as a Summer Intern. The role has been responsible for leading a project to develop an AI model designed to forecast LNG tanker deliveries worldwide. This involved not only designing and training predictive algorithms but also integrating diverse datasets, including shipping schedules, port activity, and historical trade flows. The project demanded meticulous attention to data accuracy, collaboration with cross-functional stakeholders, and iterative optimization to ensure the model provided actionable insights for decision-making in a complex and dynamic global market. The role has also actively contributed to team collaboration on tasks such as investigating gas market price data from exchanges. This work involved coordinating with team members, sharing insights, and synthesizing findings into comprehensive reports to support team objectives.

Best regards,

A handwritten signature in blue ink that reads "Monica Winge".
